SPRAYFLEX®

The self-cleaning anti-spray that protects road users and equipment.

The leading anti-spray solution since 1994.

Available for:

ISTOFLEX®/GREENFLEX®

RIMFLEX®

Benefits of SPRAYFLEX®:

- › satisfies EU requirement, all-year-round
- › 77% spray water absorption
- › straightforward installation
- › self-cleaning
- › robust material
- › customisable with logo
- › pre-mounted on the mudwing

Greater safety for your vehicle and all road users.

WITH SPRAYFLEX®

Spray suppression on commercial vehicle mudwings is an EU-wide requirement (as per Directive No. 91/226) for vehicles in excess of 7.5 tonnes. With SPRAYFLEX®, you get a robust antispray solution made from a composite material that turns a requirement into a sound investment.

Self-cleaning by design:

If mud, snow and ice collect in an antispray system, the mudwing may be damaged by their weight. In addition, there is a risk of dirt particles falling off, causing damage to tyres and endangering other road users. SPRAYFLEX® reliably prevents this from happening thanks to its self-cleaning effect.

7% better than required:

77% water spray absorption compared to the legally required 70%.

Robust composite material:

SPRAYFLEX® is inherently deformation-resistant even when subjected to extreme temperatures, impact and shock. The material used for Sprayflex is designed to comply with the legally prescribed wind deflection of no more than 100 mm. The HBN mudwing system is non-corroding and maintenance-free.

TOPFLEX® mount

Benefits of TOPFLEX®, MAXFLEX®

- › easy fitting and removal
- › one-bolt adjustment
- › adjustable up to 140 mm
- › individual mudwing brackets with 40–42.4 mm diameter
- › impact-resistant material

CUPFLEX® plug

Benefits of CUPFLEX®:

- › the SPRAYFLEX® antispray is easily attached to the mudwing with the sturdy CUPFLEX® solution
- › durable and non-corroding
- › extremely robust, even in high temperatures
- › cheaper than conventional attachment solutions

The brands of the BPW Group:

we think transport

At BPW, our aim is to provide the best possible support to our customers in their business operations. That is why we uncompromisingly focus on putting customer needs first. Above all, this includes listening to you and being ready to assist you in every situation. For us, this partnership approach means: **we think transport**
