# THE ALL-ROADER.

BPW ECO Air

# The first of its kind.

BPW ECO Air is the new generation of running gear for on- and off-road use. A patent-pending high-tech laser process means that BPW's typical clamped modular air suspension mounting can be combined with a round axle beam for the first time. This provides maximum sturdiness and cuts the weight of a three-axle suspension unit by 27 kg.\*

## **GUARANTEED TO BE ROBUST**

ECO Air is the robust solution for all operating conditions including the 5+3 years ECO Plus Warranty on the hub, hub bearing, axle beam, air suspension mounting and air suspension hanger brackets, as well as the additional 3 years warranty on brake cylinders, shock absorbers and air bags. This warranty is valid for on- and off-road use across Europe with unlimited mileage.

## **NEEDS-BASED MAINTENANCE**

The clamped modular air suspension mounting and the replaceable individual components mean that maintenance can be performed as needed. You therefore not only save weight, but also reduce costs at the same time.

## **BORN DIGITAL**

Right from the moment it is ordered, ECO Air carries a unique digital DNA that stays with it throughout its life, from production to maintenance. This DNA makes highly efficient processes and intelligent services possible across its entire life cycle. Each component is systematically tagged with information for all the technical specifications and combination options. QR codes enable quick identification of parts and supply all the relevant technical data and combination options.

\*Weight saving compared to the old version of ECO Air Compact or ECO Air Compact HD

THE BPW EFFECT

**27 kg**

weight saving  
in 3-axle suspensions

### IMPRESSIVE BENEFITS

- Robust running gear for on- and off-road use.
- Needs-based maintenance for efficiency and savings.
- Weight reduction of 27 kg in three-axle suspension unit.
- 5+3 years warranty on the hub, hub bearing, axle beam, air suspension mounting and air suspension hanger bracket.
- 3 years warranty on brake cylinders, shock absorbers and air bags.
