

we think transport

# GO FOR SURE.

BPW SafeT

# The clever and reliable retrofit solution for added security.

**SafeT is the simple yet ingenious door lock that is easily mounted to the rear door of the vehicle and prevents unauthorised opening.** This effectively protects both vehicle and cargo. As soon as the door is closed, the system locks automatically and can be opened without a key via a code and a mechanical keypad. Since it does not require a power supply, SafeT is extremely reliable and robust.

## WHAT YOU NEED TO KNOW

- Meets the requirements of the TAPA standard.
- Particularly suitable for pharmaceutical, high value or food transport.
- Can be used for various rear portal doors.
- The system works without a key.
- Completely mechanical, robust and fail-safe.

## IMPRESSIVE BENEFITS

- You do not need a power supply, the system is completely stand-alone.
- You achieve maximum security thanks to automatic locking.
- You can retrofit your vehicles easily, inexpensively and without special tools.
- You save time thanks to ease of installation and repair.
- You can always open the door from the inside in the event of an emergency.

THE BPW EFFECT

100%

stand-alone security
