

ILAS-E lift axle valve

- ▶ For **electrically controlled raising and lowering** of one or more lift axles via the EBS
- ▶ **Automatic lift axle control** via the ECO Tronic EBS enables the starting aid and manoeuvring aid functions
- ▶ **Equipped** with several pneumatic connectors

ILAS-E – Features and benefits

- ▶ **Rapid assembly** thanks to integrated connectors
- ▶ **Simple construction** reduces sources of errors

Air spring valve

- ▶ For the **load-dependent control** of airbag pressure and
- ▶ **Maintaining constant** ride height
- ▶ **Transverse throttling** between the right and left airbags
- ▶ Integrated **connectors**
- ▶ Valve with **plastic housing**

Air spring valve – Features and benefits

- ▶ **Avoids running gear instability** when cornering
- ▶ **Extremely high corrosion resistance**
- ▶ **Rapid installation**

Trailer Monitor

- ▶ To display **diagnostic and trailer-specific data**
- ▶ **Load display** in kg or %
- ▶ Adjustable **odometer**
- ▶ **ADR-** or **non-ADR** variants available

Trailer Monitor – Features and benefits

- ▶ **User-friendly 3-button operation**
- ▶ **High-resolution display**
- ▶ **Warning display (and service lamp)**
- ▶ **Central plug connection** for EBS diagnostic cable
