

New brake disc with ECO Plus 3 series launch

We will start the series launch of the 9t - ECO Plus 3 bearing technology, with the introduction of the offset 120 version and disc brake (offset 120 Wheel-End) on the 15th of May 2015.

With the introduction of ECO Plus 3 the geometry of the disc changes.

In unfavorable tolerance positions, it may happen that the old brake disc does not fit optimal to the new ECO Plus 3 hub with offset 120.

Therefore, in the area of connection to the hub, the brake disc is provided with an additional chamfer.

The following discs are replaced with new versions:

Overview brake discs		
	old	new
TSB 3709	03.088.34.14.0 / .7 / .8	03.088.34.21.0 / .7 / .8
	03.088.34.17.0 / .7 / .8	03.088.34.22.0 / .7 / .8
TSB 4309 / TSB 4312	03.088.35.05.0 / .7 / .8	03.088.35.12.0 / .7 / .8

Compatibility:

› New brake disc:

The new brake discs are backward compatible and can also be mounted on the previous axle configurations.

› Old brake disc:

The old brake discs should not be mounted on the new ECO Plus 3 hub.
