HESTAL CargoMaster Strap Lift System

The revised and newly combined strap lift system from Hesterberg is launched under the name of HESTAL CargoMaster.

On the one hand the product variants type 501 (fixed connection) and type 502 (sliding connection) are now standardised. On the other hand we developed a new system for type 502 which enables the use and combination of smaller sliding rails (2.35m) rails.

Overview of the recommended fastening types and applications:

Fastening options	Drawing	Sliding roof	Fixed roof
Type 501 with attachment straps			✓
Type 501 with hose clamp fastening		✓	
Type 502 with sliding rail system		✓*	

* Review of the roof rail is necessary to ensure if the sliding rail system can be retro-fitted: Please use the "Checklist"

From now on we can deliver two all-in packages type 502 – compactly packed and deliverable on pallet: One small package for truck and trailer body structures (approx. 7 metres long with 6 strap lifts) and one big package for trailer body structures (approx. 14 metres long with 12 strap lifts).

The following table gives an overview of the offered product portfolio for the different fastening options.

Note: The restraining strap itself is not part of any delivery.

Type	Fastening options	Description / Scope of delivery	Hesterberg-article number	BPW article number
501	Attachment strap	Small all-in package containing 6 strap lifts and attachment straps	1.000.320.00	92.0000.7132
501	Attachment strap	Large all-in package containing 12 strap lifts and attachment straps	1.000.321.00	92.0000.7137
501	Attachment strap	1 x strap lift including 2 attachment straps	1.000.319.00	92.0000.7313
501	Hose clamp	Small all-in package containing 6 strap lifts and hose clamps	1.000.323.00	92.0000.7138
501	Hose clamp	Large all-in package containing 12 strap lifts and hose clamps	1.000.324.00	92.0000.7139
501	Hose clamp	1 x strap lift including 2 hose clamps	1.000.322.00	92.0000.7314
502	Sliding rail system	Small strap lift set containing 6 strap lifts including roller carriages and towing ropes (without sliding rail system and fastening material)	1.000.317.00	92.0000.7135
502	Sliding rail system	Large strap lift set containing 12 strap lifts including roller carriages and towing ropes (without sliding rail system and fastening material)	1.000.318.00	92.0000.7136
502	Sliding rail system	Small all-in package containing 6 strap lifts, 7m sliding rail system and fastening material	1.000.315.00	92.0000.7133
502	Sliding rail system	Large all-in package containing 12 strap lifts, 14m sliding rail system and fastening material	1.000.316.00	92.0000.7134
502	Sliding rail system	1 x strap lift including roller carriages and towing rope (without fastening material)	1.000.310.00	92.0000.5711
Accessory		Protection angle for sensitive goods	1.000.310.28	92.0000.6415

Please consider that type 501 can not longer be ordered in the original variants.
