Group

The new upBox – your personal spare parts warehouse for more uptime

With the new upBox, you have easy access to the commercial vehicle spare parts you need at any time. The upBox is set up directly on your company site and functions as a digital consignment warehouse. There are no additional costs – you are only charged for the items you take out. The billing, reordering and replenishment processes are entirely automatic and stress-free for you with no manual tasks.
