

BPW running gear technology.

For special requirements.

we think transport

we think transport

The aim of the BPW Group is to provide the best possible support to our customers in the transport and logistics industry. That's why we place the utmost importance on meeting our customers' needs. This includes listening to you, ensuring that our solutions meet your individual requirements, and being there for you whatever the situation. For us at BPW, this mean: **we think transport**

Five brands – one robust partner.

With the merger into the BPW Group of the BPW, Ermax, HBN Teknik, Hestal and idem telematics brands, we can be a strong partner in every area.

For us, the BPW Group represents the basis for a much more precise coordination of products and services. This way, we can provide the optimal solutions that support you and your ability to compete.

Special requirements demand individual solutions.

Whether you transport cars, wind turbines or entire drilling platforms: BPW works with you to develop customised solutions that are optimally coordinated to your needs.

Cranked axles for transportation of cars and boats

Heavy duty axles for the heaviest transport goods

Steering axles for special and oversized vehicles with multiple axles

Axle stub for double-deckers and box trailer vehicles

(Tandem-) swing axles for low loader trailers with high axle loads

OUR SOLUTIONS FOR YOU:

- › Axle loads 6–60 t
- › BPW air suspension from 6–14 t
- › BPW leaf suspension from 8–20 t
- › BPW drum and disc brakes
- › KTL_{Zn}-coating

Engineering services

Our specialists provide a broad range of engineering services to support your manufacturing operations: From application consulting to FEM calculations and multibody simulations, to driving and test facility trials. We are happy to provide advice and to work together to develop the solution that's right for you. Please contact us.
